DETAILED ACTION

Response to Amendment

1. The amendment and remarks filed on 24 May 2010 is noted with appreciation.
2. Claims 14-30 are now pending.

Election/Restrictions

3. Claims 25 and 26 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 9 November 2009.

4. Newly submitted claims 29 and, presumably, 30 (see below), are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: these claims are drawn to the non-elected invention of Group II and depend from withdrawn claim 25. Consequently, they are independent or distinct for the reasons set forth in the Office action mailed 9 October 2009.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 29 and, presumably, 30 (see below), withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Information Disclosure Statement

5. The information disclosure statement (IDS) submitted on 24 May 2010 was filed after the mailing date of the non-final Office action on 22 February 2010. The

Art Unit: 1715

submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. This claim recites a *method as claimed in claim 29*, while claim 29 is an article claim. The Examiner has interpreted claim 30 as having a typographical error and has grouped it with claim 29 as part of the non-elected invention (see above). To the extent that Applicant indeed intends this claim to be a method claim, it is indefinite since the metes and bounds are impossible to determine since it depends from an article claim.

Allowable Subject Matter

9. Claims 14-24, 27, and 28, are allowed.

10. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art is of record and it neither teaches nor suggests the claimed process having *hollow chambers of the hollow profile strand* or in which the wiping lip *touches only a portion of a cross-sectional perimeter of the inner walls (of said hollow chambers)*.

Conclusion

11. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US 3,732,625 A and US 3,862,497 A are cited as representative of the state of the art.

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
